Resident Spotlight

Lucy Sanders

Lucy was born February 29, 1948 (a leap year baby!) in Bryan, Texas. She grew up first in Bryan, then in Eastern Virginia where her Aunt Lucy (Lucy's namesake) lived. Lucy has one sibling, her older brother Tom, who still resides in Bryan.

She graduated from the University of Mississippi with a Bachelor's degree in English, and later earned a Master's of Library Science from Texas Women's University. She then worked as a newspaper reporter in Greenville, Texas, where she received multiple awards for her writing, even having the Associated Press' Dallas Bureau Chief write a commendation for her reporting of a local murder trial.

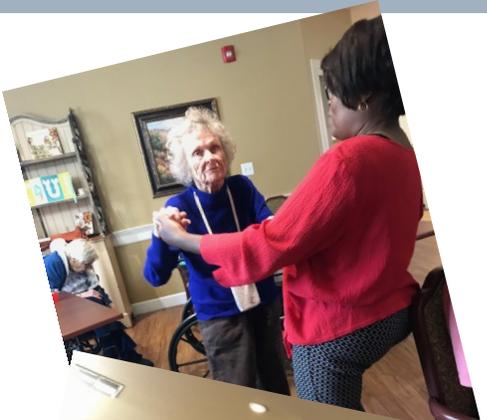

After that, she worked as a consultant for a well-known public relations and marketing firm in Dallas, Texas. Until her retirement, she was the head Librarian at the University of Texas at Dallas Corporate Research Library.

During her free time, she enjoyed visiting with friends over margaritas, reading, and cross-stitching, and was a talented amateur horticulturist. Lucy still loves to visit with folks and you can hear her voluminous laugh up and down the halls of the Assisted Living building.

Easter Egg Hunt

Games: Bubbles, Chalk, Fishing , Corn Hole & Piñata

Easter - Good Food, the storm drove us inside right after the hunt!

Resident Spotlight Memory Care Lucille Leissner

Lucille Ewald Leissner was born on August 17, 1928 to Walter and Alma Ewald in Guadalupe County. She is the only living sibling out of seven brothers and sisters. In 1947 she married her sweetheart Olm Ray. At the time of his passing, they had been married for 63 years and 11 months. Lucille was a very loving wife, mother, grandmother and great-grandmother.

She got the nickname "The Maize Queen" as she drove the maize trucks into town and the egg farm while her husband worked in the fields. She wore her long sleeve blue shirt and her big straw hat while standing under the shade trees waiting on her truck to be filled and get on the road again. Many area farmers were amazed that she could handle the trucks like she did. There were many late nights, but farming, along with their day jobs, was what they did to provide for their family.

When time permitted, she and Olm Ray, along with their children, would go to Polka dances on the weekends. Lucille loves her music, her garden and her flowers. She enjoyed making jellies and canning vegetables from her garden. Her yard was her pride and joy. She also taught herself how to sew while her husband was fighting for our country in Korea.

As parents, they made sure to teach their children to love no matter what, to be honest, respectful and above all, to make love last. Even though she lives with a terrible disease, she always has her famous beautiful smile that she shows to residents and staff alike! Be sure to say 'hi' to her when you see her!
